

Information on Refusal Percentages and Standard Individual Export Licence Application Processing Times by Destination

July - September 2004

The following information has been extracted from the Export Control Organisation's databases, and is split into two tables.

Table 1: Information on Refusals of SIELs by destination

This table gives a percentage figure for refusals for each destination where there has been at least one refusal of a SIEL application during July - September 2004, with the comparative figures for January – March and April – June 2004. The figure is worked out on the basis of all applications received during the period. Figures for the previous quarter may have been adjusted to take account of successful appeals.

Table 2: Information on Number of SIELs processed within 20 working days and Median of Days

This table provides information on the percentage of cases that were processed within HMG's target of 20 working days during July - September 2004, again with the comparative figures for January – March and April – June 2004. Also provided is the average (median) number of days taken to process all SIEL applications to that destination, both those within the 20 working day target and those that missed it. It should be noted that some of the figures could be skewed by a low number of applications for a destination, eg for Guyana there was only 1 application for Jan-Mar.
