

Information on Refusal Percentages and Standard Individual Export Licence Application Processing Times by Destination

October - December 2005

The following information has been extracted from the Export Control Organisation's databases, and is split into two tables.

Table 1: Information on Refusals of SIELs by destination

This table gives the total number of refusals and a percentage figure for refusals for each destination where there has been at least one refusal of a SIEL application during October - December 2005, with the figures for the first three quarters of 2005, and all of 2004. The figure is worked out on the basis of all applications received during the period. Figures for the previous quarter may have been adjusted to take account of successful appeals.

Table 2: Information on Number of SIELs processed within 20 working days and Median of Days

This table provides information on the total number of cases processed and a percentage figure for cases that were processed within HMG's target of 20 working days during October - December 2005, with the figures for the first three quarters of 2005, and all of 2004. Also provided is the average (median) number of days taken to process all SIEL applications to that destination, both those within the 20 working day target and those that missed it. It should be noted that some of the figures could be skewed by a low number of applications for a destination, eg for Guyana there were only 2 applications for 2004.
