

## 25 JANUARY FCO BOARD MINUTES

### SUMMARY

The Board reviewed the December **Key Performance Report**, which gave an accurate picture of the FCO's financial situation following a third quarter hard close of the accounts and the most up to date view of expected year-end outturn.

The Board welcomed **Management Information Strategy** paper, which sets out high-level MI requirements for decision-makers at Board, Director and Post level. A Working Group will be set up to take this forward.

The Board welcomed progress in the **Future Firecrest Programme**. Roll out of the new 3G desktops in the UK remains on target and preparations were now well underway.
