

# Strategic Export Controls

Quarterly report

April – June 2007

This quarterly report covers export licensing decisions made by Her Majesty's Government between 1<sup>st</sup> January 2007 and 31<sup>st</sup> March 2007. All the information relating to a destination is shown together, and the reader will find all (if any) information on SIELs, OIELs, SITLs, SITCLs and OITCLs all in one place. This enhances the readability of the report.

The information within the report covers those licences Issued, Refused or Revoked within the period for the following categories:

- Standard Individual Export Licences (SIELs) (including information on incorporation and Standard Individual Transshipment Licences)
- Open individual Export Licences (OIELs)
- Open Individual Trade Control Licences (OITCLs)
- Standard Individual Trade Control Licences (SITCLs)
- Council Regulation 1236/2005 (concerning trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment).

## **General Information**

### **SIELs**

SIELs generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence. Licences permitting permanent export are generally valid for 2 years from date of issue. Where the export is temporary, for example for the purposes of demonstration, trial or evaluation, the licence is generally valid for one year only and the items must be returned before the licence expires. A licence is not required for the majority of transshipments through the UK en-route from one country to another, providing certain conditions are met. Most other transshipments can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. Where this is not the case, a Standard Individual Transshipment Licence (SITL) is required.

The information on SIELs included in this Report has been compiled using the Export Control Organisation's computer databases. The databases were interrogated during the compilation of this Report to identify the status of all applications on which a decision was taken during the period covered by this Report. In a small number of cases there may be a subsequent change of status. There

are two main reasons for such changes: a licence issued during the period may have been revoked, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully.

During the period, 1,945 SIELs were issued, 46 were refused and none were revoked.

### **OIELs**

OIELs are specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees. OIELs covering the export of items entered on the Military List are generally valid for two years, while OIELs covering other items are generally valid for three years. There are no Open Individual Export Licences for transshipments. During this reporting period 35 OIELs were issued. In addition, 1 OIEL were amended during the period to exclude particular destinations and/or items, 2 application for an OIEL were refused in full and no OIELs were revoked. It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

A summary description is provided for all items covered by SIELs and OIELs issued for this period. The Report also gives information on the number of small arms covered by SIELs issued in the period.

However, this information is not provided in cases where, under the Code of Practice on Access to Government Information, the arguments for publication of the information are otherwise outweighed by the harm that this would cause to commercial confidentiality and/or legitimate security interests in the recipient country. No such exclusions were made in this Report.

In the case of SIELs refused or revoked, only the rating of the goods is provided. Likewise for OIELs, only details of ratings are provided for licences revoked, refused in full or whose coverage was amended during the period by the exclusion of the destination (including items excluded in 2005 by the amendment of 2005 and pre-2005 licences).

### **TRADE LICENCES**

### **Standard Individual Trade Control Licences (SITCLs);**

A Standard Individual Trade Control Licence (SITCL) is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for two years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Should further similar activity take place, a further licence must be applied for. During the period 6 SITCLs were issued, none were refused and none were revoked.

### **Open Individual Trade Control Licences (OITCLs)**

An Open Individual Trade Control Licence (OITCL) is specific to a named trader and covers involvement in trading of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users. OITCLs are generally valid for 2 years. During the period 5 OITCLs were issued, none were refused and none were revoked.

A lower level of information is provided on both OITCLs and SITCLs as the release of further information at this stage may have an adverse commercial effect on some of the activities being undertaken. However, more detailed information should be included in the full Strategic Export Controls Annual Report.

### **INFORMATION ON SIELS, SITLS AND OIELS**

The entry for each destination contains the following information:

#### *For SIELs:*

- Total value of all applications in respect of which a SIEL was issued for the export of items to the destination concerned during the period, whether the export concerned was permanent or temporary. The total value of SIELs is arranged into 3 bands of: £100,000 or lower, up to £250,000 and for larger amounts is rounded to the nearest £500,000. The lower level of less than £100,000 was introduced as a result of moving to quarterly reporting, and reflects the fact that for some destinations the value of SIELs issued can be quite low.

It should be noted that the actual value of exports made under the licences is likely to be less than

shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

- The number of licences issued, including numbers of licences for items on the Military List, for other items and for both.

- A summary description of the items covered by the licences issued during the period, with the items that were allowed for temporary export indicated by a "T" preceding the description. The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. It does include applications refused during this period that, at the end of it, were pending a decision on an appeal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the destination concerned under an Open General Export Licence (OGEL).

In a small number of cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued, as shown above, is slightly lower than the sum of all SIELs issued shown on the destination pages.

#### *For Incorporation:*

Information on incorporation is provided in the same format as for SIELs, and includes the same level of information.

#### *For SITLs:*

Information on SITLs is provided in the same format as for SIELs. However, the items covered by issued SITLs merely pass through the UK and it would therefore be misleading to include a 'value' for these licences in the report.

#### *For OIELs:*

- The number of licences issued also includes additional items authorised in 2005 through amendment to a pre-2005 licence.

- A summary description of the items covered by each OIEL the relevant OIELs issued during the period is shown by destination, with the items that were allowed for temporary export indicated by a "T" preceding the description.

- Information is also provided on the relevant destination pages for OIEL applications refused in full or for licences which were revoked or where coverage was amended during the period by the exclusion of the destination or by the exclusion of items in this quarter by amendment to licences issued in 2005 or earlier.

The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific items or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, those for which it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, as the case may be. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

#### *Special OIELs*

There are three special categories of OIELs:

#### *Media OIELs*

Media OIELs authorise the export of protective clothing and equipment, mainly for the protection of aid agency workers and journalists, in areas of conflict. Following representations from the

community, a revised OIEL was made available (from mid-November 2004) that enables such organisations to deploy a broader range of controlled equipment. In addition to military helmets and body armour, the revised licence includes NBC protective items, non-military 4WD civilian vehicles with ballistic protection and specially designed components for any of these goods. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required. During this reporting period, no Media OIELs was issued.

#### *Continental Shelf OIELs*

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels. During this reporting period, no Continental Shelf OIELs were issued.

#### *Global Project Licences (GPL)*

This is a form of export licence that has been introduced by Framework Agreement (FA) partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria. During this reporting period, 1 GPL was issued in this reporting period.

#### *Other Licences*

#### *Transfer of Technology and Technical Assistance*

These licences are issued for the transfer of technology and provision of technical assistance under Articles 8, 9 and 10 of the Export Of Goods, Transfer of Technology and Provision of Technical Assistance (Control) Order 2002. During this reporting period 1 licence was issued, and none refused or revoked.

# Dealer to Dealer (Dealer) Open Individual Export Licences (OIELs)

Dealer OIELs authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Export Control Organisation at least 2 working days before each shipment.

The following is a list of the items that have been authorised for export to the following destinations only:

Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden.

No of Licences Issued	Goods Summary
7	semi-automatic pistols, revolvers, replica vintage guns, vintage guns, deactivated weapons, pistols, sporting pistols, rifles, sporting rifles, air guns, veterinary/tranquilising rifles, shotguns, vintage shotguns, components for semi-automatic pistols, components for shotguns, components for pistols, components for revolvers, components for sporting pistols, components for rifles, components for sporting rifles, components for air guns, components for veterinary/tranquilising rifles, components for replica vintage guns, components for vintage guns, components for deactivated weapons, weapon sights, components for weapon sights, ammunition for veterinary/tranquilising rifles, blank ammunition, crowd control ammunition, inert ammunition, small arms ammunition, smoke ammunition, sporting gun ammunition, training ammunition

Footnote: A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

Footnote: Arms trade sanctions against the DRC were invoked by CFSP 2005/440 on 13 June 2005 and by UN Security Council Resolutions 997, 1493 (amended by 1533), 1552, 1596, 1616 and 1698. There are exemptions to the arms embargo. Exports fell within the exemptions (for the supply of the police and army of the DRC, humanitarian efforts, equipment for the use of the UN Mission or the EU force, non-lethal equipment for protective purposes, with the proviso that such supply and provision has been notified in advance to the Sanctions Committee).

Arms trade sanctions against Rwanda were invoked by UN Security Council Resolution 918 (amended by 997 and 1011). Resolution 997 extended this embargo to cover arms exports to countries neighbouring Rwanda (Burundi, DR Congo, Uganda and Tanzania) where their intended use was within Rwanda. Exports to the DRC complied with this by not being for use within Rwanda. UNSCR 1771 (2007) extends the embargo with an amendment to allow provision of training and technical assistance in the North and South Kivu (to units under DRC command, but still undergoing integration).

#### STANDARD INDIVIDUAL EXPORT LICENCES

Total value of SIEL applications for which a licence was issued:	£26.0m
--	--------

Number of SIELs issued covering:	
Items on the Military List	54
Other items	8
Military List and other items	0
Total number of SIELs issued and total value:	62

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

- air guns (1)
- T armoured all wheel drive vehicles
- T attack alerting/warning equipment
- body armour
- components for airborne targeting equipment (3 licences)
- components for aircraft radars
- components for anti-ship missiles launching equipment
- components for armoured fighting vehicles
- components for body armour
- components for combat aircraft
- T components for improvised explosive device detection equipment
- components for large calibre artillery ammunition
- components for military aero-engines (10 licences)
- components for military cargo vehicles
- components for military communications equipment
- T components for military electronic equipment
- components for military infrared/thermal imaging equipment (6 licences)
- components for military navigation equipment
- T components for military navigation equipment
- components for military training aircraft
- components for military transport aircraft (2 licences)
- components for military utility helicopters
- components for naval navigation equipment
- components for naval radars
- components for optical target designator equipment (2 licences)
- components for shotguns
- components for sporting rifles
- components for submarines
- components for tanks
- components for turrets
- devices for initiating explosives
- equipment for the development of turrets
- equipment for the use of military communications equipment
- T explosive ordnance disposal equipment
- firing sets
- general military vehicle components
- high energy batteries
- imaging cameras
- T improvised explosive device detection equipment
- military electronic equipment
- T military electronic equipment
- military helmets
- T military improvised explosive device disposal equipment
- military navigation equipment
- T naval communications equipment (2 licences)
- NBC clothing
- NBC filters
- products containing depleted uranium
- products containing plutonium-239 (2 licences)
- rifles (1)
- semi-automatic pistols (1)
- shotguns (1)
- shotguns (3)
- small arms ammunition
- T software for the modelling of military operation scenarios
- software for the simulation of military operation scenarios
- sporting rifles (2)
- technology for the development of nuclear reactors
- technology for the development of submarines
- technology for the development of unmanned air vehicles
- technology for the production of general military aircraft components
- technology for the production of military aero-engines
- technology for the production of unmanned air vehicles
- T technology for the use of improvised explosive device detection

technology for the use of military aero-engines  
 technology for the use of military communications equipment  
 T technology for the use of military electronic equipment  
 test equipment for military aero-engines  
 test equipment for naval radars  
 test models for components for submarines  
 training non-sporting shotgun ammunition  
 training tear gas/irritant ammunition  
 unfinished products for surface-to-air missiles

- assault rifles (50)
- assault rifles maintenance equipment
- body armour (2 licences)
- components for assault rifles (2 licences)
- components for body armour (2 licences)
- components for explosive ordnance disposal equipment
- components for general purpose machine guns (2 licences)
- components for semi-automatic pistols (2 licences)
- equipment for the use of assault rifles
- equipment for the use of weapon sights
- general purpose machine guns (60)
- general purpose machine guns maintenance equipment

improvised explosive device jamming equipment  
 military helmets  
 semi-automatic pistols (1)  
 small arms ammunition  
 smoke hand grenades  
 technology for the use of semi-automatic pistols  
 weapon cleaning equipment (2 licences)  
 weapon sights

Footnote: General trade sanctions against Iraq were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I 2003/1519]. The embargo on arms and related material was retained, with exemptions. Exports fell within the exemptions to the arms embargo imposed by the UN Security Council resolutions 1483 (22 May 2003) and 1546 (8 June 2004), because they were required by the Coalition Provisional Authority, the Government of Iraq or the Multinational Force to serve the purpose of the resolutions.

Footnote: Arms trade sanctions against Rwanda were invoked by UN Security Council Resolution 918 (amended by 997 and 1011). Resolution 997 extended this embargo to cover arms exports to countries neighbouring Rwanda (Burundi, DR Congo, Uganda and Tanzania) where their intended use was within Rwanda. Exports to Tanzania complied with this by not being for use within Rwanda.

- technology for the use of environmental test facilities for military aero-
- technology for the use of military aero-engines
- test equipment for surface-to-air missiles
- test equipment for surface-to-air missiles control/handling/launching
- T test equipment for weapon day and night sights
- toxins
- T weapon night sights

#### OPEN INDIVIDUAL EXPORT LICENCES

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aerial target equipment, components for aerial target equipment, software for the use of aerial target equipment, technology for the use of aerial target equipment,
2	P	unclassified components, specially designed or modified for military use, specified by entries ML1, ML2, ML4, ML5, ML6a, ML9a, ML10, ML11, ML14 and ML15 of Schedule 1 Part 1 of the Export of Goods, Transfer of Technology and Provision of Technical Assistance (Control)

		Order 2003 (EGTTPTA(C)O 2003), as amended, for main equipment only
3	P	components for ground based radars, components for airborne radars
4	P	components for ground based
5	P	components for military electronic equipment, test equipment for military electronic equipment, equipment for the use of military electronic equipment, software for the use of military electronic equipment, technology for the use of military electronic equipment,

## Turkmenistan

### STANDARD INDIVIDUAL EXPORT LICENCES

Total value of SIEL applications for which a licence was issued:	£1.0m
--	-------

Number of SIELs issued covering:	
Items on the Military List	1
Other items	0
Military List and other items	0
Total number of SIELs issued and total value:	1

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

military sonar detection equipment

## Turks and Caicos Islands

### STANDARD INDIVIDUAL EXPORT LICENCES

Total value of SIEL applications for which a licence was issued:	Less than £100,000
--	--------------------

Number of SIELs issued covering:	
Items on the Military List	1
Other items	0
Military List and other items	0
Total number of SIELs issued and total value:	1

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

military utility vehicles

## Ukraine

### STANDARD INDIVIDUAL EXPORT LICENCES

Total value of SIEL applications for which a licence was issued:	£1.0m
--	-------

Number of SIELs issued covering:	
Items on the Military List	5
Other items	5
Military List and other items	0
Total number of SIELs issued and total value:	10

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

assault rifles (10)  
electronics cooling fluids  
equipment employing cryptography (2 licences)  
gun silencers (2 licences)  
T imaging cameras  
sniper rifles (10)

sniper rifles (5)  
vibration test equipment

## United Arab Emirates

### STANDARD INDIVIDUAL EXPORT LICENCES

Total value of SIEL applications for which a licence was issued:	£4.0m
Number of SIELs issued covering:	
Items on the Military List	17
Other items	18
Military List and other items	0
Total number of SIELs issued and total value:	35

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

- accessories for pressure monitoring equipment
- T airborne radars
- aircraft military communications equipment
- anthrax vaccines
- assault rifles (3)
- biological agent detection equipment
- components for armoured fighting vehicles
- components for assault rifles (2 licences)
- components for biological agent detection equipment
- components for combat aircraft training equipment
- T components for electronic warfare equipment
- components for gun mountings
- components for military aero-engines
- components for military distress signalling equipment
- components for military utility helicopters
- components for semi-automatic pistols
- components for submachine guns
- T components for test equipment for command and control vehicles
- components for valves
- T cryptographic software
- equipment employing cryptography (3 licences)
- T equipment employing cryptography
- equipment for the use of submachine guns
- fibre prepreps
- gun mountings
- gun silencers
- human pathogens
- imaging cameras (4 licences)
- inertial equipment (3 licences)
- marine position fixing equipment
- military airborne cargo nets
- military airborne cargo strops
- military aircraft ground equipment
- military aircraft pressure refuellers
- semi-automatic pistols (2)
- software for the use of military aero-engines test equipment
- submachine guns (250)
- technology for the development of air-to-surface missiles
- technology for the use of assault rifles
- technology for the use of semi-automatic pistols
- technology for the use of submachine guns
- toxins
- valves (2 licences)
- weapon cleaning equipment (2 licences)

## United States of America

#### STANDARD INDIVIDUAL EXPORT LICENCES

Total value of SIEL applications for which a licence was issued:	£661.5m
--	---------

Number of SIELs issued covering:	
Items on the Military List	156
Other items	20
Military List and other items	5
Total number of SIELs issued and total value:	181

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

- air guns (1150)
- air guns (1350)
- anti-armour missiles handling equipment
- armoured fighting vehicles
- armoured plate (3 licences)
- assault rifles (1)
- T biological agent detection equipment
- biological agent detection equipment
- chemical agent detection equipment (4 licences)
- T civil NBC protection equipment (2 licences)
- command communications control and intelligence software
- T components for airborne radars
- components for anti-armour missile training equipment
- components for anti-ship missiles
- components for anti-ship missiles launching equipment (5 licences)
- components for armoured fighting vehicles
- components for armoured fighting vehicles simulators
- components for assault rifles (7 licences)
- components for bombs
- components for chaff equipment
- T components for combat aircraft
- components for combat aircraft (12 licences)
- T components for combat aircraft simulators (2 licences)
- components for combat helicopters (2 licences)
- components for general purpose machine guns (3 licences)
- components for improvised explosive device detection equipment (3 licences)
- components for large calibre artillery (3 licences)

components for military aero-engines (14 licences)  
 components for military aircraft head-up displays (2 licences)  
 components for military communications equipment (5 licences)  
 T components for military communications equipment  
 T components for military electronic equipment  
 components for military search and rescue aircraft  
 components for military training aircraft (2 licences)  
 T components for military underwater remotely operated vehicles  
 components for military utility helicopters (6 licences)  
 components for naval engines  
 T components for NBC respirators (3 licences)  
 components for optical target acquisition equipment  
 components for submachine guns (4 licences)  
 components for surface-to-surface missiles (3 licences)  
 T components for unmanned air vehicles  
 components for unmanned air vehicles (4 licences)  
 decoy flares  
 devices containing tritium  
 devices for initiating explosives  
 enriched uranium

Footnote: Arms trade sanctions against Zimbabwe were invoked on 18 February 2002 by EU Common Position 2002/145/CFSP, and modified and extended by Common Positions 2003/115/CFSP, 2004/161/CFSP, 2005/146/CFSP and 2006/51/CFSP. Exports fell within the exemptions of the arms embargo, which cover non-lethal military equipment intended solely for humanitarian or protective use, and protective clothing exported under certain conditions.
